ECRWSS
U.S. POSTAGE
PAID
EDDM RETAIL

The South Carolina Department of Transportation (SCDOT) proposes to widen approximately six miles of I-26 between SC 27 (Exit I87) to one mile west of Jedburg Road (Exit I94). The purpose of the project is to increase capacity, reduce congestion, and improve traffic operations within the project corridor.

The Purpose of this Public Information Meeting is to provide information about the project to the public and to solicit feedback from area residents, businesses and commuters. Another purpose of the meeting is to gather information from the public or any interested organization on historic or cultural resources in the area. Engineering and environmental personnel from the FHWA, SCDOT and their consultant will be available to answer questions and discuss the project with interested citizens on an individual basis.
